CONTENTS OF VOLUME 369

December 1985

BENNETT J.A., GOODCHILD C.S., KIDD C. & MCWILLIAM P.N. Neurones in the brain stem of the cat excited by vagal afferent fibres from the heart and lungs. 1

FITZKE F.W., HAYES B.P., HODOS W. & HOLDEN A.L. Electrophysiological optometry using Scheiner's principle in the pigeon eye. 17

FITZKE F.W., HAYES B.P., HODOS W., HOLDEN A.L. & LOW J.C. Refractive sectors in the visual field of the pigeon eye. 33

CAZALIS Monique, DAYANITHI Govindan & NORDMANN Jean J. The role of patterned burst and interburst interval on the excitation-coupling mechanism in the isolated rat neural lobe. 45

CHIPPERFIELD A.R. Influence of loop diuretics and anions on passive potassium influx into human red cells. 61

GREENWOOD J. & PRATT O.E. Comparison of the effects of some thiamine analogues upon thiamine transport across the blood–brain barrier of the rat. 79

APPENTENG K., DONGA R. & WILLIAMS R.G. Morphological and electrophysiological determination of the projections of jaw-elevator muscle spindle afferents in rats. 93

MCINTYRE A.K., PROSKE U. & RAWSON J.A. Pathway to the cerebral cortex for impulses from tendon organs in the cat's hind limb. 115

KUDO Norio & YAMADA Toshiya Development of the monosynaptic stretch reflex in the rat: an *in vitro* study. 127

ADAMS D.J., TAKEDA K. & UMBACH J.A. Inhibitors of calcium buffering depress evoked transmitter release at the squid giant synapse. 145

COPENHAGEN David R. & GREEN Daniel G. The absence of spread of adaptation between rod photoreceptors in turtle retina. 161

EUSEBI F., MILEDI R., PARKER I. & STINNAKRE J. Post-synaptic calcium influx at the giant synapse of the squid during activation by glutamate. 183

COOPER E. & SHRIER A. Single-channel analysis of fast transient potassium currents from rat nodose neurones. 199

HIROTA Akihiko, KAMINO Kohtaro, KOMURO Hitoshi, SAKAI Tetsuro & YADA Toshihiko Early events in development of electrical activity and contraction in embryonic rat heart assessed by optical recording. 209

TERAKAWA Susumu Potential-dependent variations of the intracellular pressure in the intracellularly perfused squid giant axon. 229

CLELAND B.G. & LEE B.B. A comparison of visual responses of cat lateral geniculate nucleus neurones with those of ganglion cells afferent to them. 249

DEFEO Tia T. & MORGAN Kathleen G. Calcium–force relationships as detected with aequorin in two different vascular smooth muscles of the ferret. 269

BAUER Anthony J. & SANDERS Kenton M. Gradient in excitation–contraction coupling in canine gastric antral circular muscle. 283

NIEBAUER Mark & ZUCKER Irving H. Static and dynamic responses of carotid sinus baroreceptors in dogs with chronic volume overload. 295

HANDA R.K. & JOHNS Edward J. Interaction of the renin–angiotensin system and the renal nerves in the regulation of rat kidney function. 311

JAMI Léna, PETIT J. & SCOTT J.J.A. Activation of cat muscle spindles by static skeletofusimotor axons. 323

ARGENT B.E. & ARKLE S. Mechanism of action of extracellular calcium on isoprenaline-evoked amylase secretion from isolated rat parotid glands. 337

EYSSELEIN V.E., NIEBEL W. & SINGER M.V. Gastrin response to a meal before and after cutting the extrinsic nerves of the stomach in the dog. 355

DUNWIDDIE Thomas V. & HAAS Helmut L. Adenosine increases synaptic facilitation in the *in vitro* rat hippocampus: evidence for a presynaptic site of action. 365

HAMM Thomas M., KOEHLER Walther, STUART Douglas G. & VANDEN NOVEN Sharyn Partitioning of monosynaptic Ia excitatory post-synaptic potentials in the motor nucleus of the cat semimembranosus muscle. 379

KEHOE Jacsue Synaptic block of a transmitter-induced potassium conductance in *Aplysia* neurones. 399

KEHOE Jacsue Synaptic block of a calcium-activated potassium conductance in *Aplysia* neurones. 439

GALLIN Elaine K. & SHEEHY Paul A. Differential expression of inward and outward potassium currents in the macrophage-like cell line J774.1. 475

COLQUHOUN D. & SAKMANN B. Fast events in single-channel currents activated by acetylcholine and its analogues at the frog muscle end-plate. 501

PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY

11–13 *July* 1985

Oxford Meeting

DEMONSTRATIONS

Booth C.M., Brown M.C. & Hardman V.J. A simple model of motor nerve–muscle fibre interactions. 2*P*

Barker A.T., Freeston I.L., Jalinous R., Merton P.A. & Morton H.B. Magnetic stimulation of the human brain. 3*P*

Lamb T.D. & Matthews H.R. A precision microperfusion apparatus. 4*P*

Brown A.D., Stockley E. & Wheal H.V. A program to aid the investigation of the branching properties of dendrites. 5*P*

Long S.K. & Wheal H.V. A high-resolution data-capture and analysis system applied to intracellularly recorded synaptic potentials. 6*P*

Bagust J., Spencer P.M. & Wheal H.V. An automated system for the analysis of evoked extracellular potentials recorded from the hippocampus. 7*P*

Kaila K. & Voipio J. A simple method for dry bevelling of micropipettes used in the construction of ion-selective micro-electrodes. 8*P*

Kaila K. & Vaughan-Jones R.D. Simultaneous measurement of intracellular ion activities and tension in voltage-clamped sheep cardiac Purkinje fibres. 9*P*

Howard M.K., Preston M.J. & Vaughan-Jones R.D. A foot-pedal operated focusing device suitable for use with a class-dissection microscope. 10*P*

Spruce A.E., Standen N.B. & Stanfield P.R. A simple means of maintaining very low rates of solution flow for use in recording from excised membrane patches. 11*P*

Macfarlane D.J., Painter Rosemary & Pilsbury D.J. Measurement of respiratory variables in human studies. 12*P*

Bagust J. A dual-channel system for recording spike trains onto magnetic disks using the BBC microcomputer. 13*P*

Matthews P.B.C. & Pickup C.M. Contrasting responses of the long flexor of the big toe to stretch and to vibration. 14*P*

Fraser M.J., Headley P.M. & West D.C. Linking an averager unit to a BBC microcomputer. 15*P*

Lovick S.E. & Normanton J.R. A computerized stereotaxic atlas of the rat brain. 16*P*

Forsling Mary L. & Runnalls M.E. Method for recording patterns of drinking in the conscious rat. 17*P*

Wade A.J. Didactic utility programs in respiratory physiology. 18*P*

Thomas M.V. & Timmerman M.P. Simultaneous measurement of fura-2 fluorescence changes at several excitation wavelengths in voltage-clamped *Balanus nubilus* single muscle fibres using a pulsed-wavelength microspectrophotometer. 19*P*

Kumar P. & Nye P.C.G. Apparatus and programs for studying the reflex ventilatory responses to computer-generated waveforms of pulmonary gas tension in the cat. 20*P*

Blakemore Colin, Larkman Alan, Mason Adrian & Wheal Howard V. Application of the *in vitro* brain slice technique to the visual cortex of the rat: intracellular recording and ultrastructural analysis. 21*P*

Ashley C.C., Godber J.F., Reynolds G.T. & Walton A. Single fura-2 loaded barnacle muscle fibres studied under voltage clamp using image intensification techniques. 22*P*

Ashley C.C., Castell L.M., Osborn C., Pritchard K. & Raine A.E.G. Applications of fluorescent Ca^{2+} indicators for the measurement of cytoplasmic free Ca^{2+} concentrations in platelets and lymphocytes. 23*P*
